# Bryant Clears the Air with

## A Rich Tradition of Enhanced Indoor Air

Since 1904, Bryant has treated American homeowners to a tradition of indoor comfort. Through the commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, as indoor environments can be as much as 5 times more polluted than outdoor air, Bryant offers patented, industry-exclusive and state-of-the-art air purification technology - the Perfect Air™ Purifier.

The Perfect Air Purifier is Bryant's premier air purification solution. It's the perfect choice for adults who can spend as much as 90% of

their time inside. And, it's an excellent defense against pollutants that can invade the estimated 2,700 gallons of indoor air you breathe each day.

## High-Efficiency Whole-Home Air Filtration

Your home is where you go to relax. However, pollen and mold spores can enter through open doors and windows, bacteria and viruses can spread between family and friends, fine dust particles get kicked up from floors and furniture, and dander and hair fall from pets. These contaminants can circulate throughout your home, spreading disease or triggering allergic and asthmatic reactions. Bryant comes to the rescue with a complete line of air filtration products led by the Perfect Air™ Purifier.

The Perfect Air Purifier is ideal for homeowners with allergy concerns, those susceptible to airborne germs such as infants and the elderly, and those sensitive to the

effects of pollen, pets and more. Unlike many portable air cleaners, the Perfect Air Purifier is extremely quiet and can treat the air throughout your home. The Perfect Air Purifier cleans over 100 times more air than popular portable units.

## Extra Effective, Extra Convenient

Offering extremely high air filtration efficiency, the Perfect Air™ Purifier uses patented germicidal technology so effective it captures and kills airborne pathogens such as bacteria, viruses and mold. The same technology is trusted to protect secure government facilities and hospital room patients. And, this product is as convenient as it is powerful because no cleaning is required. Simply remove and replace the media cartridge periodically to maintain peak performance.

# Superior Efficiency and Convenience.

## How Does it Work?

Truly a whole-home solution, the Perfect Air Purifier treats 100% of the air flowing through your home comfort system using a unique three-step process. Here's how it works:

**Step 1:** The Perfect Air Purifier uses precision point ionization to charge particles as they enter the purifier.

**Step 2:** A specially designed, continuously charged media captures airborne particles.

**Step 3:** Exclusive, state-of-the-art technology kills captured viruses, bacteria, mold spores and other allergens.

## Warranty

Bryant's Perfect Air™ Purifier provides dependability backed by a written, five-year limited warranty. Extended warranties are also available. Ask your trusted Bryant dealer for details.

## The Evolution of Comfort

Bryant is at the forefront of a comfort revolution with its exclusive Evolution™ System. Starting with the sleek, sophisticated Evolution™ Control, this system puts more power and ease-of-use at your fingertips than any other comfort control.

A Bryant Evolution System delivers superior comfort while also offering enhanced air cleaning capabilities. Nearly continuous flow of air through your system's filters and an economical multi-speed continuous fan function both contribute to this system's ability to clear the air. True Sense™ dirty filter detection adds to your indoor air quality and system efficiency by letting you know exactly when it's time to clean or replace your filter for optimum performance. And, with our Perfect Humidity™ function, you'll enjoy precision humidity control during the cooling season and control of your humidifier from one convenient location during heating. Simple, intuitive and powerful, the Evolution™ System truly sets a new standard for excellence in home comfort.

*The Evolution™ Control is much more than just a thermostat. It is your single source of precision temperature, humidity and indoor air quality.*

## Prior to Your Purchase

Bryant has a history of doing whatever it takes to deliver trusted quality, comfort and value to millions of homeowners nationwide. With the Perfect Air™ Purifier you can enjoy cleaner, healthier indoor air and enhanced system efficiency.

### Efficiency

- The Perfect Air Purifier provides extremely efficient removal of airborne pollutants. By keeping your system operating cleaner, you ensure maximum operating efficiency.

### Comfort

- With cleaner, healthier indoor air, it's easier to relax and enjoy your comfort. And, it's easy to keep enjoying cleaner indoor air because the Perfect Air Purifier doesn't require monthly cleaning - just replace the removable media one or two times per year.

## Indoor Air Quality Option Checklist

- Air Cleaners/Purifiers
- Ultraviolet Germicidal Lights
- Fresh Air Ventilators
- Humidifiers
- Evolution™ System Control

# Indoor Comfort You Can Rely On

- 1 ENVIRONMENTALLY SOUND COOLING**  
Bryant offers a comprehensive family of 13 - 20 SEER air conditioners and the environmentally sound Puron® refrigerant.
- 2 PRECISION COMFORT CONTROL**  
Our Evolution™ Control allows for precise temperature and humidity control. "Intelligent" circuitry with full 7-day programmability monitors operation and automatically adjusts system settings to maximize comfort and efficiency.
- 3 FURNACE**  
Provides reliable, high efficiency heating for long-lasting comfort and energy savings. Available in high efficiency gas- and oil-based fuel sources.

- 4 EVAPORATOR COIL**  
Allows the refrigerant to absorb heat from the air as it passes over the coil surface. The evaporator coil is located with the indoor unit and is also referred to as the indoor coil.
- 5 HUMIDIFIER**  
replenishes moisture to dry air.
- 6 AIR PURIFIER**  
Improves air quality by removing harmful and irritating airborne pollutants from your home.

- 7 ULTRAVIOLET GERMICIDAL LAMP**  
helps prevent growth and buildup of contaminants on your indoor coil to maximize efficiency and leave your indoor air cleaner and less polluted.
- 8 FRESH AIR VENTILATOR**  
combines fresh outdoor air with conditioned indoor air for improved air quality and maximum efficiency – great for today's tightly constructed home.
- 9 ZONING**  
Sets different temperatures for up to eight different areas of your home for truly customized comfort and enhanced utility savings.
